<p>1:30 p.m. – 2:45 p.m.</p>	<p style="text-align: center;">Regulatory Issues Concerning Water Utilities</p> <p>In 2017, the American Society of Civil Engineers (ASCE) gave the U.S. a “D” in drinking water infrastructure and found that the U.S. will need to spend \$4.5 trillion by 2025 to fix our aging and ailing infrastructure. This is a big investment that has the potential to impact rates and the affordability of water service. There are many alternative ratemaking mechanisms, such as trackers and infrastructure charges that are designed to help solve the problem of our nation’s aging water infrastructure. But what is the impact on customers? The panelists will discuss the alternative ratemaking mechanisms used to encourage investment in infrastructure and the role that affordability plays in this equation.</p> <p>Moderator: Commissioner David Ober, Indiana Utility Regulatory Commission</p> <p style="text-align: center;">Panelist:</p> <p style="text-align: center;">Chuck Rea, Director of Regulatory Services, Iowa American Water Chairman Brien J.
